ARCTIC BAN™ -50 RV/MARINE ANTI-FREEZE

\$3.99
PER GAL
GAL-50ANTIFREEZE

Antifreeze for potable water systems

For use in winterization of fresh/potable water systems in campers, RVs and summer homes. High-grade formulas protect equipment down to -50° F. (-46° C) with no mixing required. Use full strength—do not dilute. All ingredients are listed in the U.S. Federal Register (GRAS - generally regarded as safe). Not recommended for winterizing boat engines.

Ethyl alcohol/propylene glycol-based formula is safe, odorless and non-staining.

MOEN® CHATEAU® BATH SUITE PRODUCT SKU TRANSITIONS

Moen's Longest-Standing Product Line has gotten a refreshed look - See the reimagined styles & features like slimmer bases and a single hole faucet for quicker, easier installation!

What Changed?

Select Chateau bathroom faucets, bath & shower products will transition to new model numbers.

These updates reflect a refreshed Chateau design and, in many cases, offering a more streamlined appearance & easier installation.

Core performance, quality & overall product positioning remain consistent, with changes driven primarily by model number updates.

Legacy SKU Availability

While the new refreshed SKUs transition into the market, the current (legacy) Chateau SKUs will remain available through 2026 (while supplies last).

Availability of these legacy model numbers are guaranteed only through 2026, after which they may be discontinued & no longer orderable.

Raychem®

FROSTGUARD 6FT 120V FREEZE PROTECTION HEATING CABLE

RAYCHEM Frost Guard energy-efficient preassembled heating cable offers an easy-to-use solution to prevent frozen pipes and avoid the significant expense of repair associated with frozen or burst pipes.

\$115.99

RAYFG1-6P

Note: 30-mA equipment or 5-mA personnel ground-fault protection must be used on each Frost Guard heating cable branch circuit. *Outlet not included

120V Frost Guard kits feature a lighted plug. Frost Guard heating cables are easy to design and install; simply fix to the pipe, cover in pipe insulation, and plug into the GFI-protected electrical supply.

PIPE INSULATION

ABOUT K-FLEX USA

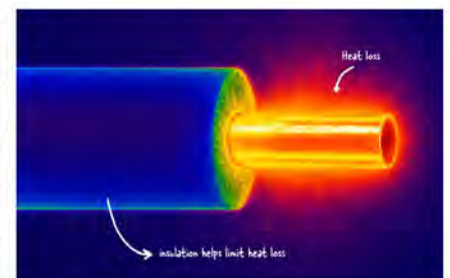

K-FLEX USA is a leading manufacturer of closed cell flexible elastomeric foam insulation products for mechanical piping, ductwork and vessels.

Designed for ease of installation and reliable performance, K-FLEX products provide excellent thermal and acoustical performance, including inherent resistance to moisture intrusion.

K-FLEX USA prides itself on being responsive to the market, providing dependable service to customers throughout North America, bringing an innovative approach to product offerings, and having products that are 3rd party tested and certified.

What to consider when choosing insulation:

- | | |
|-------------------------------------|------------------------------|
| λ Thermal Conductivity | 🌡️ Operating Temperature |
| 🔥 Reaction to Fire | 💧 Water Permeability |
| ✅ UNI EN 14304 | 🔍 Declaration of Performance |
| μ Water Vapour Diffusion Resistance | |
